# At a Glance: 2027 International HBV Meeting

**Dates:** September 7th - 11th, 2027

**Location:** Calgary, Canada

**Conference Venue:** Hyatt

Regency Calgary, Canada

**Website:** [www.hbvmeeting.org](http://www.hbvmeeting.org)

**January 2027:** Registration & Abstract submission open

**June:** Deadline for abstract submission

**July:** Early bird registration deadline

**August:** Registration closure

The 2027 meeting will showcase rigorous, cutting-edge science, foster stimulating discussion, and highlight the latest technical, translational, and therapeutic advances in the field. Continuing the tradition of previous meetings, the conference will provide outstanding opportunities for networking and collaboration while supporting the next generation of investigators. Through travel awards and dedicated trainee programming, we remain committed to encouraging the participation and professional development of early-career researchers. Registration will open early, and we look forward to sharing the exciting scientific program in the coming months.

# Welcome from the Co-Chairs

Dear Colleagues,

It is our pleasure to welcome the HBV and HDV community to the 2027 International HBV Meeting, which will be held September 7–11, 2027, in Calgary, Canada, known as the “Blue Sky City.” Recent advances in therapies aimed at achieving a functional cure for hepatitis B virus (HBV) infection, together with new treatment options for hepatitis D virus (HDV), have generated renewed excitement throughout the HBV and HDV research community.

The meeting will be held at the Hyatt Regency Calgary, conveniently located in the heart of downtown and within walking distance of many of the city’s attractions. Beyond the scientific sessions, attendees will enjoy numerous opportunities to network and experience Calgary’s vibrant culture. The conference will also feature an authentic Western Canadian experience, including a special excursion to Heritage Park Historical Village, one of Canada’s premier living history museums.

We gratefully acknowledge the dedication of the Hepatitis B Foundation staff for their invaluable partnership in organizing this meeting and our generous sponsors, whose financial support have been instrumental in making the 2027 International HBV Meeting possible.

We look forward to welcoming you to Calgary for what promises to be an outstanding scientific meeting and an opportunity to strengthen collaborations across the global HBV and HDV research community.

# The Legacy of the International HBV Meeting

Since its inception in 1985, the **International HBV Meeting** has served as the leading global forum for researchers to exchange discoveries, challenges, and insights in an interactive and collaborative setting. It remains the only international scientific conference dedicated exclusively to the **hepatitis B (HBV)** and **hepatitis D (HDV)** viruses. Each year, the meeting brings together the world's foremost experts alongside emerging scientists studying **HBV**, **HDV**, and **hepatocellular carcinoma (HCC)**. Many of the most significant breakthroughs in HBV and HDV research were first presented at this meeting, driving progress in **drug discovery**, **therapeutic development**, and our broader understanding of these infections.

## Who Attends

Industry professionals, graduate students, post-doctoral scholars, and scientists interested in all aspects of the biology of HBV and HDV including:

- Molecular biology
- Virology
- Immunology
- Pathogenesis
- HBV-induced cancer
- Latest therapeutic advances against HBV and HDV
